

## AquaNot® 508 Spin

ProPak 508-0006 shown

## Battery Backup Systems

### Self-Testing Battery Backup System

The AquaNot Spin 508 ProPak is a fully preassembled sump system that includes a primary pump and battery backup pump that will remove water even during a power outage. The primary pump comes standard with the Zoeller LED Plug that allows you to check for power at a quick glance.

# Be Confident About Your Flood Prevention.

- High-performance, high-efficiency, double-sealed pump
- 2 days of battery protection (10% duty cycle), 5.5 hours continuous pump run
- Can connect 2 independent switches for redundancy. Not just a single switch with 2 floats
- Optional high water switch for alarm AND redundant pump run (purchase 10-4830)
- Smart, innovative controller; premium built-in diagnostic logic; battery maintenance and alarms
  - Tests pump
  - Supervises switch connections
  - Monitors for the following alert conditions:
  - Simple interface
    - Pump activation
    - Pump, switch, battery, & charger faults
    - Continuous run caused by stuck switch, blocked/frozen pipe, etc.
    - High water (optional)
    - Air locked pump
    - Power outage
- Both primary pump options for ProPak units come standard with the Zoeller LED Plug that allows you to check for power at a quick glance
