Product Details

- High-performance, high-efficiency, double-sealed DC pump
- Built-in Wi-Fi on Aquanot® Fit systems
- 2 days of battery protection (10% duty cycle), 5.5 hours continuous pump run
- Can connect 2 independent switches for redundancy. Not just a single switch with 2 floats
- Battery box
 - Accommodates all group size 27, 29 and 31 batteries
- Smart, innovative controller
 - Premium built-in diagnostic logic
 - Battery maintenance and alarms
 - Tests pump on an adjustable schedule
 - Supervises switch connections
 - Monitors for the following alert conditions:
 - Pump activation
 - Pump, switch, battery, & charger faults
 - Continuous run caused by stuck switch, blocked/frozen pipe, etc.
 - High water (Add-on "Spin' 10-4830, Included in "Fit")
 - Air locked pump
 - Power outage
- Both primary pump options for Spin and Fit ProPak systems come standard with the Zoeller LED Plug that allows you to check for power at a quick glance
