# PIVOT PAK IS

## » FEATURES & BENEFITS

The Pivot Pak IS is an independent accessory designed to be added to any of our existing Pivot panels to convert them to intrinsically safe panels.

- MUST be installed in a general-purpose area
- Meets Class 1 Division 1 Intrinsically Safe requirements
- 15" long prewired conduit cord with stripped wire ends for fast and easy connection to a control panel
- Steps down 120 V power from the panel to the float switches
- Connect up to three or four floats for simplex or duplex operation
- Stock less panels with this one accessory
- Refer to FM0526 for low current float switch selection or any milliamp floats used for hazardous environments
- See FM3459 for the panel selection guide
